

BULLETIN

CSHPM/SCHPM

Ce numéro du Bulletin contient la programme tentative du congrès annuel de la SCHPM.

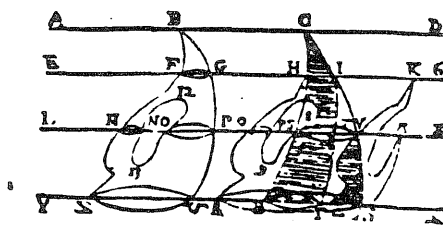

Anyone who desires to speak at the conference is asked to immediately contact:

Tom Archibald
Mathematics Department, Acadia University,
Wolfville, Nova Scotia, BOP 1X0
Electronic mail address: <HMATH@ACADIA>

La SCHPM vient de recevoir une subvention de voyage de \$750 de SSHRC, ainsi qu'une subvention administrative de \$1400.

In the same mailing as this copy of the Notices members should receive a copy of the ballot for the 1987 elections.

ANNUAL MEETING - CONGRES ANNUEL

Master University, Hamilton Ontario

May 25 - 27, 1987 / le 25 - 27 mai 1987

PROGRAMME PRELIMINAIRE - TENTATIVE PROGRAMME

All sessions will be held in Burke Science Hall, B 115.

Monday May 25 - Morning

Special Session on Bertrand Russell

9:30 I.H. Anellis. Mathematical Hegelianism? Russell and Engels on philosophy of mathematics.

10:00 N.Griffin. Russell at Cambridge 1890-93: Russell's Mathematical education.

10:30 A.Garciadiego. (Title TBA)

11:00 J.Loase. Pure thought in its relationship to the development of the digital computer - a salute to Russell.

Lundi le 25 mai - après-midi

2:00 F. Abeles. An early database: C.L.Dodgson's letter register.

2:45 R.H.Eddy. An application of Desargues' two - triangle theorem from the late 19th century.

3:30 M.Clutton-Brock. Probability distributions which express ignorance.

Tuesday May 26 - Morning

9:30 M.Folkerts. German-language mathematical texts of the late middle ages.

10:30 R.Herz-Fischler. Dürer's Paradox, or, Why an ellipse is not egg-shaped.

11:15 U.D'Ambrosio. Alpoym and Colonial mathematics in Brazil.

12:00 -1:30:

Assemblée Générale / Annual Business Meeting

mardi le 26 - après-midi

2:00 J.Dawson. Prelude to recursion theory: the Gödel-Herbrand correspondence.

2:45 I.Anellis. J.van Heijenoort as a logician.

3:30 A.Garciadiego. Cantor and the paradoxes of set theory

Wednesday, May 27 - Morning

9:30 J.Loase. The problematic irrationals.

10:15 L. Beaulieu. Bourbaki 1935-1950: a sketch.

11:00 A. Antolin. Philosophy and Mathematics in the 18th century.

mercredi le 27 mai -après-midi

2:00 A. Shenitzer. Remarks on discontinuous groups of motions and their geometries

3:00 A. Ray. A perception of a mathematician's world.
