

PROCEEDINGS OF THE

**Canadian Society for History
and Philosophy of Mathematics**

**Société Canadienne d'Histoire
et de Philosophie des Mathématiques**

Volume 22

*Thirty-fourth Annual Meeting/Réunion Annuelle
Third Joint Meeting with the Canadian Mathematical Society*

**Memorial University
St. John's, Newfoundland
June 6-8, 2009**

Editor
**Antonella Cupillari
Penn State Erie, The Behrend College**

Table of Contents

Preface

Amy Ackerberg-Hastings

The Relationship between Mathematics and Physical Sciences in John Playfair's Natural Philosophy Course 1

Gregg De Young

Ziyādāt Literature: An Early Form of Commentary in the Arabic Euclidean Tradition 9

Roger Godard

Some Examples of Eigenvalue Problems in Mathematical Physics 15

Hardy Grant

Eighteenth-century Mathematics: the Naysayers 29

Jeremy Gray

Mathematics, Motion, And Truth: The Earth Goes Round The Sun 32

W. Jim Jordan

Structuralist Mirages on the Road from Antiquity – Why the Ancient Greek Mathematicians Were Not Mathematical Structuralists 42

Gregory Lavers

Frege the Conventionalist and Carnap the Fregean 52

Robert H. C. Moir

The Conversion of Phenomena to Theory: Lessons on Applicability from the Early Development of Electromagnetism 68

David Orenstein

Helen Hogg's, M13 Variables 92

Andrew B. Perry

Isaac Greenwood's Arithmetick: The Earliest American Textbooks 97

Bruce J. Petrie

Euler, Lambert, and the Irrationality of e and π 104

Josipa G. Petronic

J. W. Gibbs and the Development of Vector Analysis in the Late-19th Century 120

V. Frederick Rickey and Tina Hartley

Choosing Department Heads at West Point 130

Joel Silverberg	
<i>Nathaniel Torporley and his Diclides Coelometricae (1602)- A Preliminary Investigation</i>	142
Charlotte K. Simmons and Jesse W. Byrne	
<i>Benjamin Gompertz: Pioneer of Actuarial Science</i>	155
James J. Tattersall	
<i>The Mathematical Department of The Yates County Chronicle.</i>	164
Maryam Vulis	
<i>ARIFMETIKA, The First Russian Mathematics Textbook Written by Leontiy Magnitskiy. . . .</i>	171
Byron Wall	
<i>Some 19th Century Arguments for the Rational Assignment of Probabilities for Possible Events in Nature</i>	178
Maria Zack	
<i>Robert Hooke and an Attempt to Prove the Motion of the Earth from Observations</i>	187
